

Solution Architecture Review Method

2-day training course

Key:

Day 1 or 2 of the course

Interactive Group activity *

*Note all activities are designed to be interactive, with discussion and participant contribution throughout, but these highlighted activities are particularly focused on interactive group work.

Example timetable for 2-day training course. Assumes up to 15 participants, broken into 3 groups of 5 for the exercises. Exercises can adopt a simple standard example (“Journey to work”) provided by the course tutor, or be determined by each group on the day. Training course for a single company could be extended by a third day in which the tutor would facilitate an architecture analysis of a system or service at the company. This would require a certain amount of preparatory documentation.

Day 1

9.00 - 9.30	Introductions
9.30 - 10.15	Architecture Descriptions, Requirements & Decisions
10.15 - 10.45	Break
10.45 - 11.30	Quality Attributes and Risk
11.30 - 12.00	Creating the context in SARM
12.00 - 13.00	Lunch
13.00 - 14.00	<i>Exercise – creating contexts in groups</i>
14.00 - 14.30	The Analysis Workshop
14.30 - 16.00	<i>Exercise – analysis workshops in groups</i>
	15 mins to develop and describe solution options
	15 mins to classify them
	15 mins break
	45 mins to analyse outcomes and develop stories
16.00 - 16.45	<i>Exercise playback (3 groups, 15 minutes each)</i>
16.45 - 17.00	Day 1 summary and wrap up

Day 2

9.00 - 9.45	Stakeholder analysis
9.45 - 10.30	<i>Exercise – add stakeholder perspectives</i>
10.30 - 11.00	Break
11.00 - 11.15	<i>Exercise quick playback (3 groups, 5 minutes each)</i>
11.15 - 12.30	Benefits and Costs
12.30 - 13.30	Lunch
13.30 - 14.00	<i>Exercise – add cost benefit analysis</i>
14.00 - 15.00	Extending the quality model
15.00 - 15.15	Break
15.15 - 15.45	<i>Exercise – exploring the insurance case study</i>
15.45 - 16.15	Course summary and wrap up
16.15 - 16.45	Individual actions & feedback
